

Selma Spa in Sunne, Sweden

Professional electric sauna heaters

Shaped by real life use

For decades Tylö has been the obvious choice for saunas in hotels, clubs, swimming baths and sporting facilities. Professionally managed environments like these prioritize reliability and low energy consumption, while frequent use subjects both designs and materials to punishing treatment.

Thanks to their tried-and-tested construction, intelligently conceived functions and materials of the very finest quality, our Sense Commercial heaters are more than a match for tough use and demanding conditions. No wonder they're a common sight in public saunas all over the world!

The Sense Commercial heaters are equipped with a number of features for smart, efficient and practical use in commercial situations. The stand-by mode senses user frequency and automatically adjusts power output accordingly. Combined with the WiFi-based control panel Elite, it is possible to control multiple sauna or steam rooms from a single point of access, such as a front desk, or mobile device. As an extra safety measure, the sauna will not start if the sauna door has been left open, or if something has been placed on top of the heater.

SENSE COMMERCIAL

- 6.6 kW - For sauna volume 4-8 m³
8 kW - For sauna volume 6-12 m³
10 kW - For sauna volume 10-18 m³
16 kW - For sauna volume 15-35 m³
20 kW - For sauna volume 22-43 m³
- Offers a classic dry sauna in public settings.
- Add control panel Elite together with relay box Commercial.

Tylarium - for professional use

Combining the Steam Commercial generator, Sense Commercial sauna heater with steam distributor, and the Elite control panel makes a Soft Sauna experience possible in public and commercial spaces as well.

Representing a new way of enjoying heat and humidity, Soft Sauna is a modern take on the traditional sauna. With lower temperatures and plenty of steam, Soft Sauna will give your customers a spa experience to remember and return to. Adding aromatic essential oils to the steam will provide a scented sauna session that is even more relaxing.

Elite control panel

Control and monitor your sauna from the office or reception using nothing but local WiFi, a mobile device and Tylö's WellAccess™ app. The app was specially developed to optimize your sauna experience and is compatible with iOS, Android and desktop PCs.
